ECZEMA CURABLE? PROVEN!

Attorney at Moline, Convicted by Oil of Wintergreen Compound.

There is nothing that will convince a lawyer except evidence. Now, here is some rather startling evidence of a simple cure for eczema which convinced one lawyer, F. C. Entriiken, attorney at Moline, Ill. He tells how oil of wintergreen compound mixed with thymol and glycerine, as in D. D. D. Prescription, cured him in thirty days after thirty years of suffering.

"For 32 years," writes Attorney Entriiken, "I was troubled with eczema, scabs all over my face, body and head. I could run a hair brush over my body and the floor would be covered with scales enough to fill a basket. I tried everything—salves, internal medicine, X-Ray—all without result."

"Just a month ago I was induced to try D. D. D. Prescription. The itch was relieved instantly; so I continued. It is just a month now and I am completely cured. I have not a particle of itch and the scales have dropped off."

"I can only say again Cure Discovered. I am now starting all eczema sufferers on the right track."

Cure after cure has been brought to our attention and always that instant relief from the awful itch.—Bort & Co.

Ohio's Great Governor.

In the initial number of the National Monthly Magazine there is abundant evidence of the fact that Ohio's present governor is a man of national prominence and renown, there being five separate references to him.

A special feature is made of Governor Harmon's argument on the rights of states, following exactly the governor's speech on that subject at the Jefferson banquet in New York. It occupies a full page and is embellished with an excellent portrait of the governor.

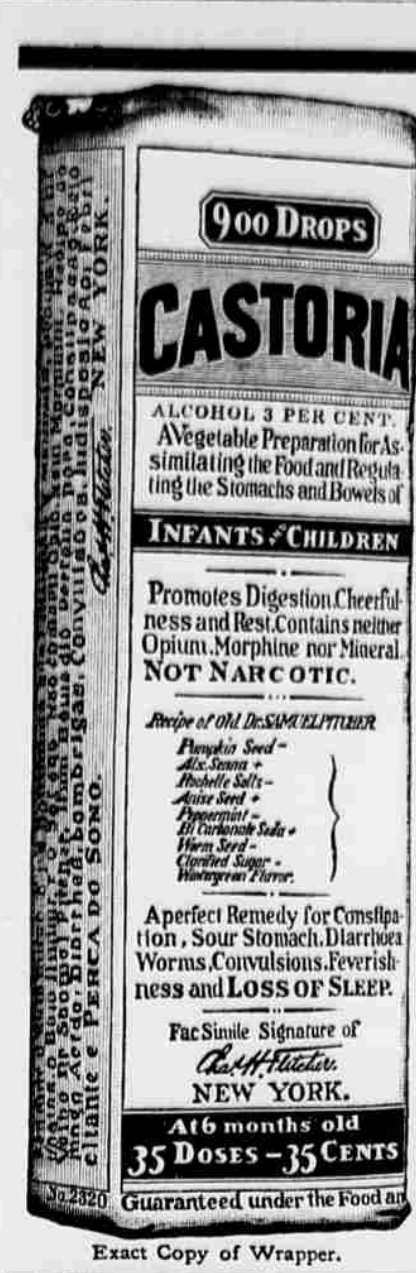

Reference is also made on another page to our governor as one of the speakers at the Jefferson banquet in New York and the Jefferson banquet at Urbana, O. Mention is made of the naming of an Oklahoma county in honor of Ohio's governor. In addition to this appears a reproduction of the Cleveland Plain Dealer's recent cartoon under the title, "Harmon on Guard."

All of which shows how a state is honored by having a governor who is known away from home as well as he is known at home and with equal esteem.

CASTORIA

Guessing Game For Victims.

Nothing is actually gained by the tariff debate in the senate except to keep the wire sizzling with "stuff" for the newspapers and to fill the Congressional Record with speeches for campaign distribution.

The g. o. p. senators from the west are piping the same tune Mr. Taft piped during his campaign trip through the west and the standpatters of the east put their own construction on that one remarkable sentence in so many of Mr. Taft's campaign speeches to the effect that some schedules should be revised downward and others upward. No wonder those who know what is really going on call it "sham revision."

When the Payne bill passed the house it was fully explained that it was not the real thing. No more is the Aldrich revision of the Payne bill. Work on the real tariff bill will begin when the two shams go to a conference committee.

Nobody except the "friends of the tariff" know what the final provisions of the bill will be, but victims of the tariff can safely guess.

Our Eye on Mr. Indicator.

One reason why Ohio people so closely watch the sleight-of-hand performance at Washington where by the tariff is being revised upward by its "friends" is that this same performance will have two sequels, the congressional election next year and the presidential election in 1912. Ohio expects to have a largely increased interest in both.

The congressional election will dovetail into the state election, although not a part of it. The number of Democratic members of congress from Ohio ought to be materially increased, and will be. To accomplish this will not interfere in the least with the election of the whole state Democratic ticket and a Democratic legislature that will work in harmony with Governor Harmon.

The probability that Ohio will furnish a candidate for president in 1912 who will be something more than "a friend of the tariff," who is and will be in fact a friend of the people, adds to the local interest with which the people of Ohio view the spectacle at Washington.

Who Scratched the Bathtub?

Nice, porcelain bath tub, too; and all the folks thought it was just lovely. But somebody was washing it out and used common laundry soap—the yellow kind with rosin and strong caustic in it—and away went the enamel and the finish. (If that kind of soap will harm porcelain enamel, what won't it do to clothes?) "Easy Task Soap," the pure, white, antiseptic, five-cent-a-cake kind, will not harm anything but dirt. Try two cakes and get your money back if it isn't as represented.

The Governor a Busy Man.

So many invitations to attend and speak at public gatherings of all kinds are pouring in upon Governor Harmon that he sincerely regrets the necessity of declining so many of them. If he were to accept all he would be doing nothing but traveling about the state "having a good time."

It is not the governor's disposition to "have a corking time" at the expense of public duty. Inclinations of that sort are better adapted to men who seek the jungles of Africa to exhaust a super-abundance of strenuousness.

The governor has appeared at quite a number of public functions so far. All the while public business accumulates at the executive office. Without having it framed and hung over the doorway, Governor Harmon believes in the old motto, "business first and then pleasure." He has ever made it his rule in private or in official life.
